WHAT YOU GET

Every module a hospital needs

Each feature works independently or together as one integrated system.

WhatsApp AI Bot
Patients book appointments by messaging your hospital number. Bot handles language detection, doctor matching, and confirmation.

Self-Service Kiosk
Tablet at entrance. Patients check in with phone, ABHA, or token. Zero receptionist needed.

Smart Queue + Voice
TV display per room. Calls patients by name in English, Hindi, Marathi, Konkani, Arabic with beep sound.

Doctor Dashboard
Live queue, AI briefings, one-tap prescriptions (120+ medicines), test ordering (74 tests), smart referrals.

Lab Management
Sample collection → result entry → verification. Auto-links to patient record. Doctor gets results instantly.

Pharmacy
Prescription queue, dispense tracking, stock management with batch/expiry alerts. No manual handoffs.

Billing & Receipts
Auto-generate bills from consultation. Record payments. Print receipts. GST/VAT calculated. Insurance covered.

Print: Rx + Discharge
Professional prescription slips and discharge summaries. One-click print. Branded with your hospital name.

ABHA + Insurance
National health ID integrated. Consent-based records. PMJAY (India) and DHA (UAE) insurance ready.

PATIENT JOURNEY

WhatsApp → Check-in → Consultation → Billing → Follow-up
